### The A-Gas Difference

- ✓ Integrity & Quality
- ✓ Compliance
- ✓ Experience
- ✓ Experts
- ✓ Global Presence

Genetron® Performax™ LT (R407F) is an ideal replacement for R22, R404A, R407A and R507 in supermarket applications because of its unrivalled performance at medium and low temperatures.

*Performax™ LT outperforms popular R22 retrofit alternatives due to:*

- Best capacity match to R22 in medium and low temperature applications
- Lower discharge temperature than R22
- Requires Polyolester
- No thermal expansion valve change or adjustment, eliminating retrofit costs
- Minimises KWH cost of system operation
- Suitable for both retrofits and new equipment
- Lower GWP (1824) compared to R404A, R407A, R507, R427A and R422D
- Most efficient R22 retrofit option in the marketplace
- Compressor manufacturers' approvals

*For retrofits or new supermarket installations, choose the refrigerant with the best combination of:*

- Capacity
- Efficiency
- GWP
- Mass flow
