

Genetron® Performax™ LT

Cool as a cucumber

Honeywell

A-GAS®

Genetron® Performax™ LT Refrigerant

Eliminate the confusion around the refrigerant choice for new supermarket installations and R-22 and R-404A retrofits with a top performing low and medium temperature refrigerant.

Genetron® Performax™ LT is an A1 rated refrigerant indicating low toxicity and non flammable suitable for both retrofit and new installations. Genetron® Performax™ LT provides the closest match to R-22 performance and out performs all other HFC blends.

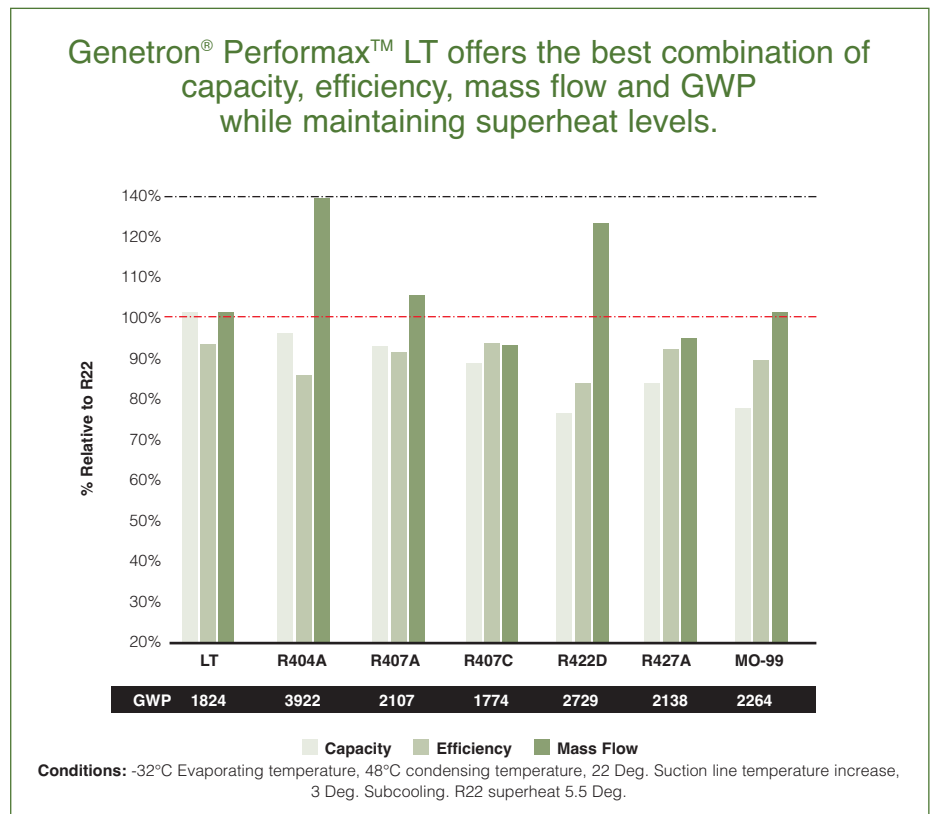

Honeywell has been granted a patent covering Genetron® Performax™ LT in the USA and has applied for patent protection in Europe.

How do I get the product?

- Genetron® Performax™ LT will be sold through Honeywell Genetron refrigerant Distributors
- Product will be available in 825 kg rolldrum and Iso Bulk

Application Notes

Consult your supplier to select an appropriate lubricant for use with Genetron® Performax™. Tests have shown Genetron® Performax™ to have a high tolerance to residual mineral oil or alkybenzene upto 20%. In most systems, one lubricant change is sufficient to attain these levels. When retrofitting R-22 systems

Genetron® Performax™ LT offers the best combination of:

- Capacity
- Efficiency
- GWP
- Mass flow
- Superheat

the Genetron® Performax™ charge will be approximately 94% that of the original R-22 charge.
