

Attachment A – Carbon tax removal substantiation statement

A-Gas (Australia) Pty Ltd ABN 18 066 273 247 (A-Gas) is a 'bulk SGG importer' for the purposes of section 60A of the Competition and Consumer Act 2010 (Cth). This statement constitutes A-Gas' carbon tax removal substantiation statement under section 60FD of the Act.

1. Cost savings attributable to carbon tax repeal

A-Gas estimates that as at the date this statement is provided that its cost savings that have been, are, or will be, directly or indirectly attributable to the carbon tax repeal, during the financial year that began on 1 July 2014, on an average annual dollar price basis, to be \$0.

2. Cost savings attributable to the carbon tax repeal which will be passed on to each class of customer

On the basis of the estimate set out above, A-Gas estimates that as at the date this statement is provided that on an average annual dollar price basis, \$0 in cost savings attributable to the carbon tax repeal have been, are or will be passed onto the following class of SGG customers during the financial year that began on 1 July 2014:

- (a) Refrigerant wholesalers and other large users (bulk purchasers of SGG)

2.2 Nevertheless, A-Gas is committed to providing its customers with competitive market prices. As market prices have declined significantly for many SGG products in the lead up to and following the carbon tax repeal, prices for many SGG products supplied by A-Gas have been significantly reduced.
